FAQ's COVID-19 Vaccine

1. Who is able to get the vaccine provided by Redlands Community Hospital?
 - Group eligibility is identified by the SB Public Health Department www.sbcovid19.com
 - Must live or work in San Bernardino County
 - Must be able to commit to second dose at the time of the first dose
 - Pfizer second dose is 17-21 days after the first dose
 - Moderna second dose is 28 days after the first dose
2. What vaccine will I be given?
 - Vaccines are provided as supplied by the county. We are unable to schedule by manufacturer.
3. What should I consider before getting a vaccine? Talk to your doctor if you have questions concerning the following
 - Have I had a severe allergic reaction after receiving another vaccine?
 - Am I planning to become pregnant or breastfeed in the next three months?
4. If I have had COVID can I get the vaccine?

Yes, if you are out of your 10 day quarantine period and are symptom free you can get the vaccine. If you had infusion treatments for COVID-19 in an emergency room or in the hospital, you need to wait 90 days from treatment to get the vaccine.
5. I had another vaccine within the last 14 days, can I get the COVID-19 vaccine?
 - It is not recommended to get the vaccine within 14 days of another vaccine. Please schedule out of this 14 day window.
6. I have more questions where can I look for more information about vaccines?
