

Stop the Spread of COVID-19

WASH YOUR HANDS
often with soap and water for 20 seconds.

USE HAND SANITIZER
with at least 60% ethyl alcohol or 70% isopropyl alcohol when handwashing is not available.

WEAR A MASK
or fabric face covering.

STAY AT LEAST 6 FEET APART.

STAY HOME IF YOU'RE SICK.

IS IT COVID-19, THE FLU, A COLD, ALLERGIES OR ASTHMA?

Your symptoms may vary. *Information is still evolving. Many people may not have symptoms. **If your quick-relief medicine is not helping your asthma symptoms, or if you are in the Red Zone on your Asthma Action Plan, call your health care provider or seek medical attention immediately. ***Allergies, colds and flus can all trigger asthma which can lead to shortness of breath, chest tightness/pain and rapid breathing. COVID-19 is the only one associated with shortness of breath on its own. ****If you have allergic asthma, you may have symptoms of both asthma and allergies at the same time.
