Hello Rim Family.

First of all, it has been wonderful having students back on campus. We are truly happy to have everyone back. Unfortunately, we are still in the middle of a pandemic, and its impact continues on our community.

We would like to share with you how students and staff will be informed if someone was in close contact with another person who tested positive for COVID-19 on any one of our campuses. Close contact is defined as being with an individual for 15 minutes or more, and less than 6 feet apart from one another. If an individual was in close contact, they will receive a specific notification. Quarantine notices will be determined based on vaccination status and mask wearing. These guidelines follow the direction provided by the California Department of Public Health. Please see the link below for more information.

If an individual does not receive a specific notification from a district representative, then **the individual has not been identified** as having close contact and may continue attending school and reporting to work as usual while wearing your mask when indoors.

We thank you for your understanding in these unprecedented times.
