Rim Families,

The Rim of the World Unified School District has partnered with AM LLC (“AM”) to conduct contact tracing of potential exposures to and testing for the COVID-19 virus. The purpose of this partnership is to help slow the spread of COVID-19 in our schools and community. Our goal is to keep our students, staff, and schools as safe as possible.

Our AM support team is now ready to provide FREE student COVID-19 testing at the parent’s request. The tests are self-administered with the supervision of trained professionals. Testing can be provided for students who:

- Have been exposed to COVID-19 in the school setting and have been placed on Modified Quarantine.
 - *Modified Quarantine: Students may continue in person instruction. Students must test after notification of initial exposure AND on or after Day 5 of quarantine period.*
- Are at school and are showing COVID-19 symptoms and have been placed in the school Isolation room.

How is the testing done? The COVID-19 testing is free, quick, and easy. Members of our school staff will oversee testing with an antigen test, which includes gently swabbing the inner part of the lower nostril. This test is not painful. We do not use the longer swabs that reach higher into the nose.

Where and when is the testing done? Our school’s testing site will be in various locations depending on the school. Results will be available within 15 minutes.

How can I be sure that my child’s information will be protected? Sharing of information about your child will only be done for public health purposes and in accordance with applicable law and policies protecting student privacy and the security of your child’s data.

In order for students to be tested through the California Rapid Antigen Testing Program, parents must first register using the following link, https://my.primary.health/r/rim-of-the-world?registration_type=student

Or, open your camera app on your phone, point camera at the barcode below and a URL appears, complete 5 minute registration.
